Day With the Bankers, the Merchants and the Brokers.

Sag in Stocks On Light Offerings

As Against Sharp Gains in Special Lines, No Well-Defined

Weak Spots.

NEW YORK, Dec. 1.—Prices moved unward in the opening dealings in stocks today in a fairly uniform manner. But that was the last of uniformity in the day's market. There were many strong points and they were developed in rotation, spreading the effect of the strength through the session of the stock exchange; but the general list did not become animated at any time, and the day's business was considerably contracted from the recent average.

he recent advances were laggard or in-lined to sag on light offerings. As gainst the sharp gains in special stocks gainst the sharp games in great weak spots, at only duliness and heaviness. There still unabated confidence that the anquillity of the money market is not be disturbed for the year-end requirements, although it is commonly ex-pected that rates will work somewhat

pected that rates will work somewhat closer.

So long as money rates remain easy there seems nothing that can disturb speculative confidence in the present market. There was a revival of confidence that the Northern Securities decision was imminent, but some uncertainty was professed as to what its character would be, so that this served to induce some hesitation rather than to stimulate speculation, as has usually been the case.

The strength of St. Paul was generally attributed, however, to hope of an early decision of the Securities case. The most notable advances were divided between stocks of an extremely higher class and those of little-tried and suspected issues. This apparent anomaly is easier to understand when it is considered that both shasses of stocks are likely to be not widely distributed and in consequence easy to move. The junior Vanderbits were conspicuous examples of the class today.

A distinctly detected absorption for in-

A distinctly detected absorption for investment of this group of stocks is of greater sentimental effect on the market for securities than almost any other act that could be named in the operations of the market. For this reason a concerted advance in the group is a favorite device of the market leaders to help along the rest of the market by sympathy. The rapid manner in which these prices were advanced today was sufficient to mark the movement as susplicious, the railroad investor, as has been truly observed, not following the manner of a bargalu-coun-

were generally favorable. The conclusion of the London settlement occasioned a favorable influence from that source.

Duck Season Will Close in Two Weeks

Bird Has Been Popular This Season and Hundreds Have Found Way to Market.

But two weeks remain until the clos eating them for two months, when the The season for catching black bass and mountain trout will close at the same time. The season for killing snipe, prairie chickens, wild geese and grouse closed have to content themselves with the domestic product for some time to come. The market was a little dull yesterday, especially with regard to importations, a car lot of sweet potatons from California and a car of needless oranges being about the only arrivals. Prices were stationary, and no great changes are anticipated in the near future.

Grain and Provisions.

Grain and Provisions.

CHICAGO. Dec. 1.—At the start the wheat market was strong. Higher prices at Liverpool and unexpected small receipts in the Northwest were the factors mainly responsible for the initial firmness. Decomber was up the to the at \$1.05 to \$1.050, and May the to the at \$1.050, to \$1.050, and May the to the at \$1.050, to \$1.050, and the object of the initial firmness. Decomber was up the to the at \$1.050, to \$1.050, and May the to the at \$1.050, to \$1.050, and the object of the opinion and as offerings were hard to find, the price quickly advanced to \$1.050.

In sympathy May sold up to \$1.160. Toward the end of the first hour sentiment gradually shifted to the bear side. With increased offerings by pit traders prices cased off. The weather was still dry throughout the winter wheat country, as shown by the weather map, but Katasas City sent reports of some snow flurries in parts of Missouri.

The prospects of moisture in the drouth-stricken region gave courage to sellers. In regard to the effect of the dry weather a Cincinnail trade paper asserted that the time had not yet been cached for assuming a positively pessimistic view and this helped to allay some of the uncasiness of the bears.

Late in the day prices received an additional act-back as a result of heavy selling by Northwestern houses. At Minneapolis deliveries on December contracts reached the astonishing figures of 1.000.000 bushels. In consequence the December discount under May in that market was confined to four cents at one time. The weakness there was reflected in the trading here.

A late cablegram from Argentine stated that the weather was improving and this also had a weakening influence on the narket. At \$1.05%, December wheat reached the lowest point of the day. May decided to \$1.050, The market closed burdle steady with December at \$1.050. May closed off \$1.251 at \$1.050, \$1.050.

The oats market trading was not heavy May closed a shade lower at

In the oats market trading was not cavy May closed a shade lower at 146314c.

Heavy receipts of hogs brought out some selling of provinions early in the day and later offerings became more liberal on intimations of a considerable increase in contract stocks. An easy tone prevailed throughout the entire session. At the close May pork was off 19 cents, lard and ribs were each down 23cc.

New York Stock Letter.

New York.-.T A McIntyre & Co.'s stock letter: The reaction in the market simply wiped out only the advances that have been scored earlier in the day, except a few special stocks where the declines did not extend beyond a half point. The movement was perfectly natural and such setbacks are likely to be of frequent occurrence in the future. We believe, however, they will prove narrow and only temporary. This being the first day of the month, the shifting of funds as above referred to was inevitable, especially in view of the fact that it took so much to meet the final payment on the Southern Pacific This means a more impregnable rate situation than has ever existed.

Logan & Bryan's stock letter: The stock market closed practically understood the final payment on the Southern Pacific preferred stock. All this money, however, will be redeposited today, and there is still nothing in the money situation to excite any apprehension or interference with the progress of the buil movement to any extent. Such liquidation as occurred in the general stock market this afternoon tends to make the technical speculative position all the healthier, as it prevents congested conditions and serves as a warning to those who were inclined to pyramid too much on their paper profits. The largest and most influential market interests are still builting and any agreed the first three hours.

Dick Bros' stock letter: Market has been an unsatifactory one today. From the opening there was persistent selling which, however, was met by very good support during the first three hours.

New York—Summary: Bank of England the future. We believe, however, they

Dick Bros, stock letter: Market has been an unsatisfactory one today. From the opening there was persistent selling, which, however, was met by very good support during the first three hours. Finally, however, the pressure became too great and in the last hour the whole list sold off very sharply. In some stocks the breaks were rather severe, and the clossing was a weak one, with stocks at the low prices. Among the early strong features were Amaigamated Copper, Baittmore & Ohlo, Missouri Pacific, Atchison and St. Paul. But later these, like everything else, lost all and more than they had gained. Money reached 4 per cent once more. The very weak closing seemed to point to lower prices tomorrow.

W. E. Hutton & Co.'s stock letter: The reactionary movement in the general list was not unexpected today. However, great strength was seen in the early session, when many new high records were made. The buying of stocks like Northwestern, A. N. C., St. Paul, Missouri Pacific and Ellinois Central was of the best, and we expect to witness a continuance of this buying before the close of the week. The buying of junior Vanderbillt issues was somewhat of a feature, these stocks being taken on the view of future merit. While money touched 4 per cent again today, this has ceased to be a speculative factor in the situation. Heavy offering of funds before the close forced the rate down to 3% per cent. We look for more favorable conditions and higher prices generally.

New York: The price of Lake Copper has been advanced 1/2 to 151/2c. Electric is now selling at 151/2c and castings at 15c. Sales of Calumet & Hecla copper

"Very fine people in this world," mused Golden Gate.

"I receive a great welcome at the breakfast table, at banquets, receptions, and wherever I go.

"Everybody says I'm the finest coffee ever produced.

"Ah, it's nice to be famous."

Nothing does with GOLDEN GATE COFFEE but satisfaction. No prizes—no coupons—no crockery, 1 and 2 lb. aroma-tight tins, Never sold in bulk.

NOTICE TO WATER-USERS.

State Engineer's Office, Salt Lake City, Utah, Nov. 17, 1893.

Notice is hereby given that C. H. Gibbs, whose postoffice address is 328 Third East street, Salt Lake City, Utah, has made application in accordance with the requirements of chapter 160 of the Session Laws of Utah, 1893, to appropriate one-half (4) second-foot of the water flowing from Bay City mine tunnel, which naturally flows into Little Cottonwood creek, in Salt Lake county, Utah, Sald water is to be diverted by means of a flume and pipe, at a point which bears approximately south 67 degrees cast, and is distant about sixteen hundred (1600) feet from the southwest corner of the southeast quarter of section 32 township 2 south, range 3 cast. Salt Lake base and meridian, from where the water will be conveyed through said flume and pipe for a distance of about four thomsand (1000) feet, and there used from January 1 to December 31, inclusive, of each year for milling lead, silver and copper ores at the Superior Alta mine, situated in Little Cottonwood mining district, and to provide water for steam bollers, for fire protection for the plant and for the domestic use of the employees of said mine. About five-hundredths (5-100) of a second-foot of the water will be consumed, and the remainder of it will be consumed, and the remainder of it will be confeded to a settling pond, where it will be clarified and then returned to the natural channel of Little Cottonwood creek, at a soolut about four thousand five hundred (1000) feet southwest of the point of diversion.

All protests against the granting of said. State Engineer's Office, Salt Lake City,

h ndred (450) feet southwest of the point of diversion.

All protests against the granting of said application, stating the reasons therefor, raust be made by affidavit in duplicate, and filed in this office within thirty (20) days after the completion of the publication of this notice.

A. F. DOREMUS,
State Engineer.
